

North Huron Tributaire 200 Ride Report

by

Liz Overduin

We had a ride last Saturday and we all agreed that it was a perfect day for cycling. The North Huron Tributaries is an awesome route which also includes going to Bayfield on the shores of Lake Huron. Our group of 6 cycled to the end of the pier, got off the bikes and jumped into the Lake. It was awesome and felt completely refreshing! We followed that up with two pitchers of beer on the pub's patio! The last 36 kms to the finish were rewarded by snacks and drinks at Con and Cindy Melady's place in Goderich (some of the guys also went for another swim at the Goderich beach) before we all went out for dinner together.
